

Zainab Nusaiba

3rd Year Engineering Student

A coding enthusiast who is interested in Full Stack Web Development. Proficiency in English integrated with some writing skills has led me to start a Blog. I am a curious student who is determined to learn the skill needed. Also, passionate about improving on UX/UI designs to bridge the gap between my codes and the comfortability of the user needs.

TECHNICAL SKILLS

Programming Language

Java, Python, C

Designing

UI design, UX design

Frontend development

HTML, CSS, JS (beginner), Reactjs

Backend development

(Learning - Beginner) Nextjs, Nodejs, SQL

Software

Adobe XD, Figma, Canva, VS Code, Microsoft Office, Adobe Photoshop, Corel Painter

EDUCATION

B.E. | Computer Science

Velammal Engineering College

08/2019 - Present

CGPA - 9.2 till 4th sem

Courses

- Operating System
- Data Structures
- C Programming
- Object Oriented Programming in C++
- Database Management System
- Algorithms
- Python Programming
- Java Programming

Class 12

Everwin Matriculation Higher Secondary School

06/2017 - 05/2019

73%

Courses

- PCM - Physics, Chemistry, Mathematics

Class 10

Everwin Vidhyasharam

06/2015 - 04/2017

CGPA - 95% (10 on 10)

SOFT SKILLS

Presentation

Communication

Leadership

TeamWork

Problem Solving

Conflict Resolution

Creative Writing

Empathy

Problem Solving

PERSONAL PROJECTS

Netflix Clone (08/2021 - 08/2021)

- A Reactjs based project resembling the UI of Netflix app.
- Used the database of firebase to pull in the recent videos.
- On-click trailer display functionality.
- Using React Hooks for video play.

Blog (08/2021 - Present)

- A Nextjs based blog.
- Proper server side rendering.
- Basic functionalities such as opening the blog and going back.
- The text files will be passed and automatically included in front page of the blog as per the passed design.

UI/UX - Food Ordering App (10/2021 - Present)

- Collected data using User Research adapting the interview process.
- Sketched, analysed and finalised wireframes based on user needs.
- Created basic prototype depicting the finalised wireframes.
- Used Figma for prototyping.

WORK

Web Developer Intern

CODE RESPAWN TECHNOLOGIES PVT. LTD.

01/2022 - Present

Bangalore Based

It is an Innovative Game Industry based Company with the main motive of producing assets for the game developers

Achievements/Tasks

- Made the dashboard for that company using the Reactjs technology.
- Made the UI changes on the React client-side web Application.
- Working on the Authentication Screen with the help of Amazon Cognito API.
- Node.js server-side APIs (future responsibility).
- To work with Modern database design - ORM using Prisma (future responsibility).
- Will learn the whole Full Stack Web development during the process (future responsibility).

ACHIEVEMENTS

Top ranks in multiple Olympiads (01/2016 - 03/2017)

Science And Mathematics

Calligraphy Competition (02/2018 - 02/2018)

1st prize

CONFERENCES & EVENTS

Ready Set Glow With Start-Up (02/2021 - 02/2021)

IEDC Cell of Velammal Engineering College

Equal Minds Hackathon (03/2022 - 03/2022)

Mindtree (A Larson & Turbo Group Company)

Internal Smart India Hackathon (03/2022 - 03/2022)

Participation certificate from Velammal Engineering College

INTERESTS

Coding

Doodling

Digital Painting

Artistic Baking

Basketball

Music

Reading Books

Journaling

LANGUAGES

English

Native or Bilingual Proficiency

Hindi & Urdu

Native or Bilingual Proficiency

Tamil

Full Professional Proficiency

French

Limited Working Proficiency

CERTIFICATES

Modern Application Development with Node.js on AWS
Specialization (03/2021 - Present)

Coursera - Part of Amazon Specialisation

The Complete 2022 Web Development Bootcamp
(12/2022 - Present)

Udemy - Full Stack Development Course

Conduct UX Research and Test Early Concepts
(10/2021 - Present)

Coursera - Part of Google Specialization

Build Wireframes and Low-Fidelity Prototype
(07/2021 - 08/2021)

Coursera - Part of Google Specialization

Start the UX Design Process: Empathise, Define, Ideate
(06/2021 - 07/2021)

Coursera - Part of Google Specialization

Foundations of User Experience (UX) Design
(05/2021 - 06/2021)

Coursera - Part of Google Specialization

Python Programming Webinars (08/2020 - 09/2020)

Skillrack - Learnt Problem solving and basics in this course
